

CaseboardEngine.ChooseA

CaseboardEngine.ChooseB

ConclusionInventory.Create
Conclusion

```
graph LR; A[CaseboardEngine.ChooseA] --> C[ConclusionInventory.Create Conclusion]; B[CaseboardEngine.ChooseB] --> C;
```

The diagram illustrates a flow where two methods, CaseboardEngine.ChooseA and CaseboardEngine.ChooseB, both point to a single method, ConclusionInventory.Create Conclusion. The arrows indicate a directed relationship from the left boxes to the right box.
