

CaseboardEngine.ChooseA

CaseboardEngine.ChooseB

CompareHandler.LeaveVersion
Choice

```
graph LR; A[CaseboardEngine.ChooseA] --> C[CompareHandler.LeaveVersion Choice]; B[CaseboardEngine.ChooseB] --> C;
```

The diagram illustrates a flow where two methods, CaseboardEngine.ChooseA and CaseboardEngine.ChooseB, both point to a single target, CompareHandler.LeaveVersion Choice. The target is represented by a gray box, while the source methods are in white boxes. Blue arrows indicate the direction of the flow from the source methods to the target.
