graph LR; A["Assets.Scripts.Framework.Caseboard.Items.CaseboardLabel Vars.Assign"] --> C["CaseboardEngine.CheckIfReady ForAccused"]; B["Assets.Scripts.Framework.Caseboard.Items.CaseboardLabel Vars.Unassign"] --> C;
```

The diagram illustrates a flow from two source components to a single target component. On the left, there are two white rectangular boxes with black borders. The top box contains the text "Assets.Scripts.Framework.Caseboard.Items.CaseboardLabel Vars.Assign". The bottom box contains the text "Assets.Scripts.Framework.Caseboard.Items.CaseboardLabel Vars.Unassign". On the right, there is a gray rectangular box with a black border containing the text "CaseboardEngine.CheckIfReady ForAccused". Two blue arrows point from the right side of each white box to the left side of the gray box, indicating a relationship or flow between the source components and the target component.
