

Headspace.Caseboard.Caseboard  
Engine.ChooseA

Headspace.Caseboard.Caseboard  
Engine.ChooseB

Headspace.Caseboard.Compare  
Handler.LeaveVersionChoice

```
graph LR; A[Headspace.Caseboard.Caseboard Engine.ChooseA] --> C[Headspace.Caseboard.Compare Handler.LeaveVersionChoice]; B[Headspace.Caseboard.Caseboard Engine.ChooseB] --> C;
```

The diagram illustrates a flow where two separate components, 'Headspace.Caseboard.Caseboard Engine.ChooseA' and 'Headspace.Caseboard.Caseboard Engine.ChooseB', both point to a single target component, 'Headspace.Caseboard.Compare Handler.LeaveVersionChoice'. The target component is shaded gray, while the source components are white with black borders. Blue arrows indicate the direction of the flow from left to right.
